

Thursday, July 29 and Friday, July 30, 2010**Portland, OR**

What: *A 2-Day seminar on becoming a successful solar energy contractor, with technical training on solar design and installation.*

Where: *Portland, OR*

When: *July 29-30, 2010 – 9am to 5pm (Continental breakfast at 8:30 am)*

Why: *Because you want to be successful and we have a formula for you to meet that goal*

Who should attend:

- *Existing: Solar Energy Contractors, Building Contractors, Electrical Contractors, Plumbing Contractors and HVAC Contractors.*
- *Those looking to become a solar energy contractor.*

Upon successful completion of this course, participants will have knowledge of:

- *Photovoltaic power systems: what components to use and how they go together*
- *Solar water heating systems: how they work and what works best from a business standpoint*
- *Why being a dealer for groSolar can give you an “unfair” advantage over the competition*
- *How you can utilize groSolar’s training and development program and skate past the competition*
- *Successful sales methods: tips from the masters*
