

**Photovoltaic (NABCEP) Entry Level  
Certificate of Knowledge  
Prep Course**

*Intensive three day course* designed to prepare individuals with basic level of electrical knowledge and general understanding of Photovoltaics for the North American Board of Certified Energy Practitioners (NABCEP) *Entry Level Certificate of Knowledge*. The class will cover the Learning Objective as provided by NABCEP during the first two days and will conclude with a review session and the Entry Level examination on the third day. The Entry Level Certificate of Knowledge will be granted to those who successfully participate in the course and pass the two hour, 60 question exam. Due to the amount of information to be covered, classes will be limited in size. Class information will be *compact and fast paced*. Students will be assigned material from the supplied textbook to review prior to the start of the class. Topics to be reviewed are intended to familiarize participants with fundamental Photovoltaic terminology and concepts. The class time will be used to review the assigned material and introduce additional material.

**Prerequisites include:** Understanding of general electrical terms and concepts (voltage, amperage, difference between power and energy), describe the use of a digital multi-meter, calculate simple circuit calculations and describe general safety procedures when working with electric systems.

**Price includes:** 3 Day Review Course, NABCEP test fees, Lunch & Refreshments & Copy of "Photovoltaic Systems" from ATP Publishers mailed prior to class for review.

**ABC Training Room, 430 West Germantown Pike, East Norriton, PA 19403  
June 3<sup>rd</sup> and 4<sup>th</sup> from 8:00 AM – 5:00 PM & June 5<sup>th</sup> from 8:00 AM – 1:00 PM**

**Early Bird Price for ABC & IEC Members Only: \$950.00 per person (before March 12<sup>th</sup>)  
Cost: \$1,000.00 per person (\$1,015.00 per person after May 14<sup>th</sup>)**

**IEC Chesapeake A&T has the right to cancel class if less than 15 students register.**

Instructor: Jeff Gilbert of groSolar is certified by the National Association of Board Certified Energy Practitioners (NABCEP) for both Thermal and Photovoltaic systems.
