

# groEnergy Watch Monitoring Solution

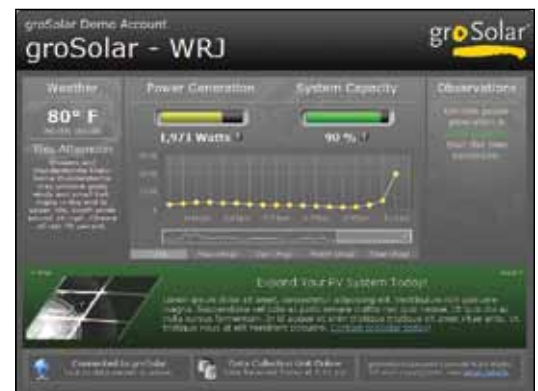

See solar power work  
**groEnergy  
Watch**

groSolar, provider of clean and sustainable solar electric solutions for homes and businesses, is proud to offer its proprietary groEnergy Watch Monitoring Solution. Developed by groSolar's industry-leading team of engineers, groEnergy Watch connects you to your solar installation through the Web and allows you to view up to the minute data on the electricity your system is producing.

Your solar solution is an investment in your home and in a clean energy future. See your solar power at work with groEnergy Watch.

## GROENERGY WATCH MONITORING BENEFITS

- See your solar system at work at any time on any web browser through your own personalized web page
  - See how much electricity your system is generating
  - See environmental statistics, such as carbon emission avoided, and equivalent gallons of gas and barrels of oil
- Nothing for you to install. groSolar technicians seamlessly integrate the technology with your inverter.
- groSolar can remotely upgrade the field units as new features become available
