## Warranty Conditions

If a device becomes defective during the relevant SMA factory warranty period, one of the following services, as selected by SMA, will be performed at no charge for materials or labor costs:

- repair at SMA, or
- repair on site, or
- exchange for a replacement device of equivalent value according to model and age.

In this case, the remainder of the warranty entitlement will be transferred to the replacement device. In such an event, you would not receive a new certificate, as your entitlement is documented at SMA.

Upon acquisition of a warranty extension after expiry of the standard warranty period, the extension only begins after a grace period of four weeks after receipt of the warranty extension order at SMA. Any repairs during this period are at the customer's expense.

For determination of warranty entitlement, please submit a copy of the purchase receipt, or a copy of the warranty certificate, and if applicable, evidence of the warranty extension. The type plate on the device must be completely legible. Otherwise, SMA is entitled to refuse to provide warranty services.
