

# SOLAR HOME HEATING SYSTEMS

groSolar™ offers clean, sustainable home heating solutions which help reduce your impact on the environment while saving you money. Reliable solar home heating systems reduce your energy use. Home heating is one of the highest energy costs in a typical household. A single solar hot air unit can heat up to 750 square feet, even in cold climates. In addition to saving you money, groSolar's solar hot air system also helps reduce your reliance on imported fossil fuel and electricity.

## REDUCE YOUR HEATING BILLS AND YOUR IMPACT ON THE ENVIRONMENT

Whether you want to heat an individual room or your whole house, this proven solar home heating solution can cut your costs simply and effectively. Heating your home when the sun shines, these systems reduce your consumption of traditional heating fuels by supplementing your existing heating system. You can install it yourself or let groSolar's professionals complete the installation. The equipment is easily adapted for either new or retrofit applications.

SolarSheat 1500G with optional PV panel for powering exhaust fan.

# SOLAR HOME HEATING SYSTEMS

## THIS PROVEN HOME HEATING SYSTEM OFFERS

**CLEAN HEATING:** With optional solar powered fan, there is no fossil fuel, electricity, or greenhouse gas emissions.

**LONG LIFE:** Quality aluminum and glass construction for long lasting, no maintenance heat.

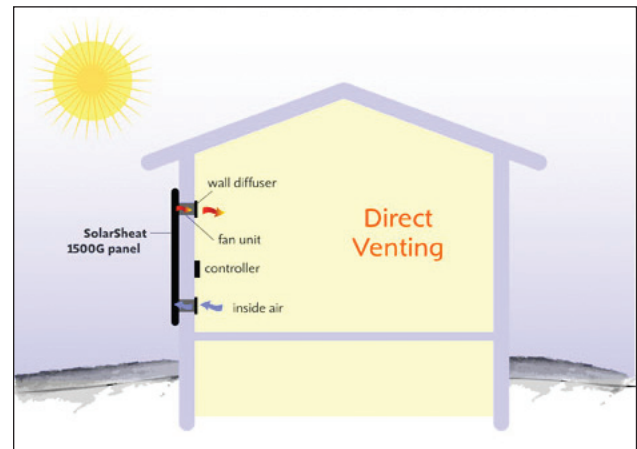

**FLEXIBLE SIZING:** Start with one, two, or three panels. Each panel heats up to 750 square feet.

**EASY TO INSTALL:** Do it yourself or have us install it for you.

**FLEXIBLE INSTALLATION:** Can be mounted on south facing walls or roof.

**COMPLETE KIT:** All hardware included for wall mount, nothing else to buy.

*Provides supplemental heating in conjunction with any type of heating system.*

The SolarSheat 1500G panel heats inside air. The amount of heat produced is based on the volume of air passing through the solar panel and the degree of sunshine. The SolarSheat is a supplemental heating system. It does not work at night. No AC electricity is required.
